

INTERNATIONAL SEMINAR

Organised by

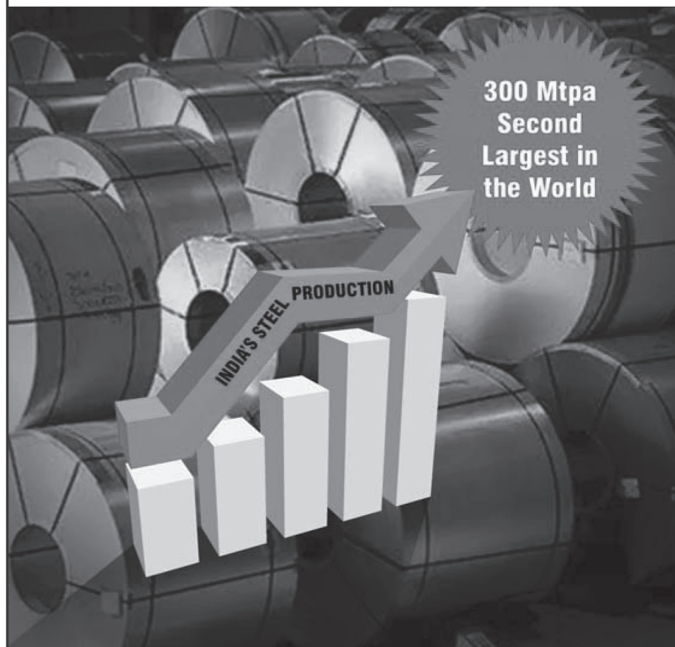

# STEEL TECH

on

## Innovations & Future of Indian Steel Industry

12<sup>th</sup> in the Series of Annual Seminars  
on Latest Technologies

Thursday 24<sup>th</sup> September, 2020 | ITC Sonar Hotel, Kolkata, India

### INNOVATIONS:

- Fossil Fuels with Carbon Capture and Storage (CCS)
- Hydrogen-based Ironmaking, Clean Power to Fuel Hydrogen-based Ironmaking
- Direct Electrolysis Ironmaking
- Carbon-neutral Steelmaking by 2050
- Breakthrough Technologies
- Development of Environmentally Sustainable New and Stronger Steel Products
- Digitisation & Robotics to produce Quality Steel with Zero Accident in Steel Plants

### FUTURE INDIAN STEEL INDUSTRY

- Path to achieve 300 Mt Crude Steelmaking Capacity as per National Steel Policy by 2030-31
- New Green-field Steel Plants & Expansion in Brownfield Steel Plants in India
- Improvement in Logistics and Scrap Recycling
- Production of Steel Plant Equipment in India under 'Make in India' Program.
- Adoption of Latest Technologies to remain Cost Competitive and Sustainable Technologies

### PARTICIPATION AND SPEAKERS FROM

- Ministry of Steel and Mines • Danieli & C • SMS Group • Primetals Technologies • Midrex • Fives Stein India • Tata Steel • SAIL • Tenova • Outotec • JSW Steel • JSPL • M. N .Dastur & Co • MECON • Vedanta Group • NML • IMMT & many more...

Do not miss this unique opportunity

**STEEL TECH's International Seminar on  
Innovations and Future of Indian Steel Industry, 24<sup>th</sup> September, 2020  
Hotel ITC Sonar, Kolkata, India**

### Participation Details

<b>PARTICIPATION FEE</b>	: Rs. 5,000 per person for Indian participants
	: Rs. 2,000 per Student participant (minimum Group size 5)
